

OBJECTIVE

Motivated IT undergraduate with practical experience in full-stack development, backend programming, database design, and application testing. Interested in an internship where I can support real-world IT projects, apply object-oriented programming skills, work with scalable application development, and grow through collaboration, design thinking, and modern development practices.

EDUCATION

R. C. Patel Secondary School, Babhalaj	91.40%
SSC - Maharashtra State Board	2014 - 2019
R. C. Patel Arts, Commerce & Science College, Shirpur	80.00%
HSC - Maharashtra State Board	2019 - 2021
R. C. Patel College Polytechnic, Shirpur	78.00%
Diploma in Computer Science and Engineering - MSBTE	2021 - 2024
SVKM's NMIMS Mukesh Patel School of Technology Management & Engineering	Pursuing
B.Tech in Information Technology	2024 - 2027

TRAINING

Web Developer Trainee NPIT Solutions, Nashik	Jul 2023 – Aug 2023
---	---------------------

- Worked as Web Developer and performed full-stack tasks across multiple projects.
- Contributed to UI development, backend integration, and testing activities.

PROJECTS

Safe City Labelling System	HTML, CSS, JS, SpringBoot, MySQL	2023
----------------------------	----------------------------------	------

- Designed and implemented an intuitive GUI using Java AWT & Swing for a responsive user experience.
- Developed scalable and maintainable backend services using Java Spring Boot for city safety data handling.
- Applied networking concepts to enable system deployment and data access over local/remote networks.
- Used MySQL as the database and wrote DML queries to manage and manipulate safety-related data.

Online File Sharing System (FileShare)	HTML, CSS, JS, Node.js, Express.js, MySQL	2024
--	---	------

- Built a secure file uploading and downloading system with a Node.js backend and a responsive frontend.
- Designed REST APIs for file handling, including upload, download, and unique code generation.
- Implemented user authentication, hashed passwords, and role-based file storage using MySQL.

Employee Management System	Java, Spring Boot, REST API, MySQL, HTML, CSS, JavaScript, JPA/Hibernate	2026
----------------------------	--	------

- Developed a full-stack Employee Management System using Spring Boot, MySQL, and REST APIs.
- Implemented complete CRUD operations for managing employee records with JPA/Hibernate.
- Built a responsive frontend using HTML, CSS, and JavaScript and integrated it with backend services.
- Tested and validated REST APIs using Postman and followed a layered application architecture.

SKILLS

Programming: Java, JavaScript, Python

Framework: Spring Boot, Node.js, Express.js

Web: HTML, CSS, JavaScript

Database: MySQL, SQL

Tools: Postman, Git, GitHub, VS Code

CERTIFICATIONS

- Completing the course of Sigma Apna College (DSA with JAVA)
- Java Foundations Professional Certificate by JetBrains
- Python Fundamentals

LANGUAGES

- English
- Hindi
- Marathi
